The RevoGen® Difference

At RevoGen® Biologics we are committed to making lives better through cutting-edge biologics. Following time-tested rigorous guidelines and delivering quality products and services to our clients is our number one goal. We are dedicated to providing the highest quality biologics products throughout the United States. We offer our services to the medical community and patients in order to improve quality of life. Our products meet the highest statutory, professional and legislative requirements. Through new processes and many advances in biotechnology, RevoGen is revolutionizing bio-regeneration to offer the highest quality biologics in the market to our physicians for their patients.

Tissue Processing

RevoGen® Biologics and our strategic partners follow rigorous guidelines and procedures to preserve allografts for their intended use. The allograft tissue recovery process begins after a prospective donor has passed our stringent screening process. Highly trained technicians operate in state-of-the-art designated clean rooms to process and prepare donor tissue. Our dedicated team is committed to providing the highest quality allograft tissue available and our thorough screening process is designed to ensure only uniform, high-quality donor tissue is recovered and processed for distribution.

Quality Assurance

RevoGen Biologics' goal is to serve our patients and physicians with the highest quality biologics products available. Along with our strategic partners, we adhere to strict policies and detailed standard operating procedures in all facets of the donor screening and tissue recovery process. Frequent policy updates assure that all procedures are current with all applicable standards and regulations. Routine quality assurance audits are performed on all processes and procedures, both internal and external.

Relationships

At RevoGen Biologics we understand the need for stringent donor screening, rigorous procedures, and the highest quality tissues, but we also know the importance of relationships. In addition to providing high quality products, we want to make sure that our clients have the most optimal experience throughout their interaction with RevoGen Biologics. If problems do arise, we will work with our physicians to resolve the issue quickly and efficiently. We want to set industry standards in product quality as well as customer relationships.
